General Provisions

Section 601. Purpose: This District finds that the foregoing water rates heretofore fixed by the District are for the following purposes:

- C. Meeting financial reserve needs and requirements; and
- D. Obtaining funds for capital projects that are necessary to maintain service within the existing District area.

Section 602. The District hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses or phrases or the application thereof to any person or circumstance be held invalid.

ARTICLE VII

Relief from Unjust Rates

Section 701. The owner or occupants of any premises who, by reason of special circumstances, finds that the foregoing rates are unjust or inequitable as applied to this premises, may make written application to the Board, stating the circumstances and requesting a different basis of charges for water service to his premises. If such application be approved, the Board may, by resolution, fix and establish fair and equitable rates for such premises to be effective as of the date of such application and continuing during the period of such special circumstances. The Board may, on its own motion, find that by reason of special circumstances, the foregoing rates are unjust and inequitable as applied to particular premises, and may, by resolution, fix and establish fair and equitable rates for such premises during the period of such special circumstances or any part thereof.
